

IITB schedule 2018

Date	Event	Time/ location
January 16	Cluster Seminar: Tissue resident memory T cells in the human lungs; challenges and opportunities (Dr. Pleun Hombrink, Amsterdam)	5 pm Limes
February 16	Cluster Seminars: Bioinformatics (Kleinkauf, Hausen, Shakeri)	2 pm – 5 pm BMZ
February 22 & 23	IITB Workshop: Introduction to Management (Katja Wolter)	9 am - 5 pm, IMBIE
March 12	PhD students' Network Meeting 2018	Haus Venusberg
March 15 - 17	DGfI Translational Immunology School	Potsdam
March 21	IITB Workshop: Cisbio Training/HTRF Technology	10 am - 3 pm, BMZ
April 9 & 10	Postdoc Workshop: How to lead - Managing in a scientific environment (ImpulsPlus)	9 am - 5 pm, IMBIE
May 15	Cluster Seminar: Phenotypic changes on Mycobacterium tuberculosis-specific CD4 T cells as surrogate markers for Tuberculosis treatment efficiency (Christof Geldmacher, Munich)	11 am BMZ
May 23 & 24	IITB Workshop: Cisbio Training/HTRF Technology practical part	9 am – 5 pm BMZ/ Lehrgebäude
May 28	Cluster Seminar: Fitness promoting traits of gut microbiota: effects on inflammation and immunity (Barbara Rehermann, NIH)	5:15 pm BMZ
May 29	Cluster Seminar: Exploring the genomics of an immune-gene-family expansion in fish, while travelling through the funnel of embryological gene expression (Philipp Schiffer, London)	11 am BMZ
June 4	Cluster Seminar: Inflammasome regulation by Leishmania spp. Parasites and its impacts in Leishmaniasis (Renan Carvalho, Brazil)	11 am, BMZ
June 5	Cluster Seminar: Inflammatory cellular and cytokine networks in autoimmune arthritis (Keiji Hirota, Kyoto)	3 pm, BMZ
June 5 & 6	IITB Workshop: Introduction to statistics and Graphpad Prism (statcon)	9 am - 5 pm, IMBIE
June 21	Cluster Seminar: Viral and non-viral pathogenesis and interferon/cytokine system (Takashi Fujita, Kyoto)	4 pm, lecture hall
June 25	Cluster Seminar: Live imaging of skin immune responses (Kenji Kabashima, Kyoto)	5 pm, LIMES
July 19	Cluster Seminar & Bo&MeRanG: Neutrophil Extracellular Traps In	11 am,

	Inflammation (Tobias Fuchs, University Medical Center Hamburg-Eppendorf)	BMZ
August 28	Cluster Seminar: The Restrictosome: A nuclear Assembly of IFI16 and restriction factors that limits HSV-1 Infection	2 pm, BMZ
September 10 - 13	ImmunoSensation Summer School: Immunology meets Neurology	Chiemsee
September 25	Cluster Seminar: Control of TH17 cells and associated cytokines (Samuel Huber, Hamburg)	11 am, BMZ
September 20 & 21	IITB Workshop: Scientific Writing (Dr. Brian Cusack, ScienceCraft)	9 am - 5 pm, IMBIE
September 26 - 28	IITB Workshop: Mass Spectrometry in Life Sciences (Marc Sylvester, Core facility Mass Spectrometry)	9 am- 5 pm IBMB
October 7 -12	DGfI Autumn School: Current Concepts in Immunology	Merseburg
October 16	Cluster Seminar: The differential role of myeloid cells in ANCA vasculitis (Adrian Schreiber, Berlin)	11 am, BMZ
October 23 & 24 (online October 19)	IITB Workshop: Career Planning and Strategic Networking (Steinbeis)	Online: 12 am-2 pm 1.day: 2 pm- 6 pm 2.day: 9 am-5 pm
November 5 & 6	Cluster Science Days 2018 (with guests from IFRcC, Osaka)	BMZ
November 15	Cluster Seminar: Metabolism, Microbiome and Immunity: Food energy regulates circulating monocytes (Stefan Jordan, New York)	05:00 pm LIMES
November 20	IITB workshop: Good scientific practice (brain4hire, Schröder)	NA
November 21	Cluster Seminar: Proteome, stability and flavoproteins: in biochemical focus on infection, stress and aging (Ramunas Martin Vabulas, Frankfurt)	05:00 am LIMES
2019	PRELIMINARY PROGRAM	
January 28 & 29	IITB workshop: Statistics	9 am -5 pm IMBIE
February 13	IITB workshop: Adobe Illustrator	2 pm -6 pm IMBIE
April 1 & 2	IITB workshop: Animal surgery	
May 7 & 8	IITB workshop: Basics in Image Processing and Analysis	
September 24	IITB workshop: Good scientific practice (scientificintegrity, Verse)	9:30 am – 06:00 pm IMBIE
