

# Life Science Technologies

in the Core Facilities

## A Seminar Series

on methods and instrumentation  
currently available in the  
Core Facilities of the Medical Faculty

**Tuesday**  
**9:00 s.t. – 10:00**

Universitätsklinikum Bonn,  
Venusberg  
Biomedizinisches Zentrum  
Hörsaal im Untergeschoss

The aim of the seminars is to give students and scientists an overview of the range of technologies and methods offered by the Core Facilities. Attendees will get new ideas for their own projects and can benefit from interdisciplinary exchange.

The seminar is open to anyone  
No registration needed

You can find further information about all Core Facilities on the following homepage
